## MARINA DREDGING CONTINUES

Dredging in the marina continues with the charter pen area currently being deepened.

The operation has now decreased from 24 hours-a-day to a single shift.

Works are on schedule with the service wharf area next on the list and then minor clean up operations with all dredging to be completed by early August.

GPC wishes to remind the community of the speed bump covering the pipe crossing, near the entrance gates to Spinnaker Park, and urges motorists to slow down at that point.

Mariners are reminded to contact the Dredge Master on Mobyag using Channel 13 for information about passing by.
